

## Q-Band Waveguide to 2.4 mm Connector Adapter, Right Angle, Non-Standard Flange

### Description:

**Models SWC-222F-R1-599 and SWC-222M-R1-599** are right angle (90°) Q-Band waveguide to coax adapters with a non-standard square flange (UG599/U-M) that cover the frequency range of 33 to 50 GHz. They are designed and manufactured for instrumentation grade quality but offered at a commercial grade price, allowing for an efficient transition between the rectangular waveguide to 2.4 mm coax connector. The end launch (180°) versions are offered under model numbers SWC-222F-E1-599 and SWC-222M-E1-599.
